

Casanova di Neri

IRROSSO Toscana IGT

VINTAGE NOTES

Winter 2020 has been characterized by mild temperatures and below average rainfalls. The return of cold temperatures at the end of March has slowed down the vegetative cycle, still the budding has taken place at the same time as the previous vintages. Spring has followed normally, with a mild climate. Flowering and fruit setting have occurred under optimal conditions. In the month of June there have been optimal rainfalls, while the summer has been hot and sunny, without excessive temperatures. All these conditions have contributed to a slow and consistent ripening of the grapes.
